

Riverside Academy

Get a Jump On your Education

Serving Students Ages 14-19

The Riverside approach to learning is truly non-traditional in nature, preparing students for the real world of work in a realistic, hands-on learning environment. One of the greatest features of Riverside is its small school philosophy where staff know and meet the individual students' academic and emotional needs.

One of the foundational elements of the Riverside philosophy is based on a strong counseling component that meets the students' emotional as well as cognitive developmental needs.

Students attending Riverside receive group counseling on a daily basis. Students also have available to them a highly trained counseling staff for individual concerns or needs.

Riverside Academy has met and exceeded the standards as set forth by NCA for academic quality. Students enrolled at Riverside can take a variety of classes including core content, career development, art, health & fitness, computer applications, publications, sales & marketing, commercial art and many more.

Graduation Requirements: Students must earn a total of 20 credits to graduate. Riverside will accept credits from other schools to apply towards this requirement.

Fresh Start:

A new program designed specifically for TRUE 9th grade students who struggle academically and/or behaviorally. Students stay in a cohort environment with teachers who provide core content instruction in English, Math, Social Studies and elective offerings. NO TUITION!!
